

Bubble Technology Industries (BTI) is a dynamic company with world-renowned expertise in the field of radiation detection. We currently have a permanent, full-time opening for a:

MECHANICAL DESIGNER / DRAFTING TECHNOLOGIST

The successful candidate shall participate in multi-disciplinary project teams responsible for the development of cutting-edge radiation and explosives detection technologies for defence and security applications used by clients around the world. BTI offers competitive compensation packages, compelling technical work, and a world-class team—all in an affordable and picturesque location.

Candidates should meet the following requirements:

- Minimum 3 year diploma in Mechanical Engineering Technology.
- Must qualify for NATO Secret security clearance (citizen of a NATO country and a ten-year verifiable history).
- Working knowledge of CAD software and drawing techniques. Autodesk Inventor experience is an asset.
- Must have outstanding mechanical aptitude and demonstrated capabilities in generating new designs.
- Must have good organization skills and understand the value of revision control.
- Must be able to communicate directly with vendors and fabricators.
- Must be able to present design concepts to project team members.
- Outstanding communication skills, both written and verbal, in English.
- Must work effectively in a fast paced team environment.

Interested candidates should send a cover letter, résumé, copy of relevant transcripts, and contact information for at least two references to:

Bubble Technology Industries
